- Aerospace
- Telecommunication
- Arboriculture

DESCRIPTION

Dorcy's Ultra HD Rechargeable Utility Light + Power Bank provides maximum brightness in a portable package. Made tool tough with a shatterproof PC lens and impact resistant rubber corners. The Ultra HD Rechargeable Utility Light provides an incredible 1,500 lumens of power to illuminate your work area for 7 continuous hours on high. For extended run time use the low setting at 280 lumens and a 20-hour runtime when maximum light output is not required. COB LED technology means the light doesn't get hot like older designs while increasing lumens and runtime. Other features include a multi-function handle or stand for hands-free use, 7-hour charging time and IP65 weather resistance. Includes a built-in lithium ion battery with 44000 mAh capacity and a port for charging other USB devices via the power bank feature. (41-4336)

Variants

model no	Lumens	Run Time	Beam Distance	Battery	Battery QTY	Weight	Special Feature
