DESCRIPTION

The 800 Lumen Pro Series USB Rechargeable LED Flashlight features an intense beam of light that projects an output of 365 meters. Constructed of durable aircraft grade anodized aluminum, this light can withstand a 1 meter drop test. Other features include recharge-ability via USB, an optimized reflector system that allows for maximum light output, 2 switch settings ? High, Low, and a memory forward switch. When you turn the light off, it will automatically come on in the next switch sequence from previous use. To obtain the setting you require, lightly push the switch to advance through to the light mode you require. The rechargeable flashlight comes complete with USB cable and 12V USB car charger. (41-4299)
