DESCRIPTION

The Pro-Series Man-Rated Winch is a multi-function winch designed for use in a wide variety of confined space, work positioning, rescue, and fall protection applications. This winch may also be used in various material handling applications within the prescribed working load limits. The Pro-2 Series winch has a lifeline capacity of up to 200 feet of 3/16" (5mm) wire rope. This winch features a unique input hub design which allows for installation of either a manual crank handle or an optional Power Drive system allowing the winch to be driven using various styles of electric hand drill.
