- Aerospace

## DESCRIPTION

The Exosphere Anchor 4X4 All-Terrain System is the solution for workers exposed to fall arrest hazards in industries across the country, where traditional products just can not handle to job. This is a versatile system that will increase productively, reduce lost time, and prevent injuries. All while guaranteeing the absolute highest level of fall protection. The Exosphere Anchor 4X4 All-Terrain system is a self-contained hydraulic system that is operated via wireless (or wired) remote control. Driving, setup and Anchor height adjusting is all carried out with a simple to follow remote control
