DESCRIPTION

With an innovating approach, that characterizes KONG, comes out Frog, a revolutionary directional connector, provided with an automatic clamping that takes place touching the anchor point. Produced after a hard design in collaboration with Politecnico of Milan, Frog is a totally new connector, both in the appearance and in the mechanism. Frog makes obsolete the concept of a carabiner thought as a "hook". The insertion is extraordinary quick and safe, even in "far" anchor points, not easy to be reached with standard connectors. It automatically clamps coming into contact with anchor point. Special for anchoring on metal cables.

Variants

PRODUCT CODE	COLOR	WEIGHT(gm)	MATERIAL	MBS(Minimum Breaking Strength KN)
704012000KK	Black / Orange	74gm	Aluminium alloy	23KN
761SET4000K	Black / Orange	74gm	Aluminium alloy	23KN
