

Overhead Fixed Liferail System

Overhead fixed LifeRail system track with roller trolley system

Certification

- Meets OSHA and EN standard requirement

Industry Type

- Tactical
- Oil and Gas/Mining
- Chemical and Pharma
- Fire and Disaster Mgmt
- Government Departments
- Railways
- Metals and Cement
- Manufacturing
- Construction
- Aerospace

**PRODUCT
COMING SOON**

DESCRIPTION

Fixed LifeRail System is sold as individual components, a standard assembly kit, or as a custom engineered system. This system provides straight rigid track fall protection on a fixed path for many applications, such as truck loading and unloading, vehicle or machinery maintenance, and manufacturing. The system can be mounted on ceiling which does not require support columns, the system does not take floor space, which means more space for your workers. In fact, ceiling-mounted systems can easily protect workers in tall ceiling height applications. By using existing support steel, a ceiling-mounted Liferail system can easily support long runs and curves within the system design.

Variants

PRODUCT CODE	WEIGHT	MATERIAL	NO. OF USER	ARM REACH	MAX LENGTH	RAIL LENGTH
LRS40010	As per system Length requirement	Steel	2 between One span	2.2 myrs	6 mtrs	3mtrs per span. Connected in series for longer lengths
