DESCRIPTION

Made from premium anodized aluminum, this light is incredibly tough and outfitted with the very latest LED technology. This amazing flashlight produces performance levels which surpass the competition in the tactical flashlight market. Extremely compact and using 6V lithium technology, this flashlight also features a triple switch mode option to allow the user a range of light output options. Other features include an IPX7 waterproof rating, the ability to withstand a 2 meter drop test, and 840 lumens of output. Also includes two CR123 or CR123a 3V lithium batteries and a metal carry clip. (41-2702)
