DESCRIPTION

The Cascade Rescue Professional Series Litters offer the best of all worlds. Reasonable pricing with the most advanced features of any rescue stretcher available today. Designed for the demanding professional, the litters are constructed with a 3/4 tubular frame and 3/8 supporting cross members, powder coated for extreme durability and resistance to the elements. Each litter includes four Patented Articulating Lift Points (ALP's) for either horizontal or vertical lifts, four Quick Tab Patient Straps, an integral Patient Contour padded back support and a heavy duty high density polyethylene mesh liner. Two piece version uses the trademark Cascade Toboggan FastLock System for rapid 10 second takedown/reassembly. (1) Piece unit is 25.5lbs, (2) piece is 27.5lbs.
