## DESCRIPTION

The Retrieval Lifeline is part of the fall arrest system. It provides protection from accidental falls that may occur in the work environment. If an accidental fall does occur, the automatic braking system will activate and stop the descent. Retrieval Hoist is equipped with a winching unit and a switch, in case of a rescue after a fall, this hand winch can easily lift the rescue person. The rescue person who has suffered the accident can therefore be rescued quickly and safely. Please read and understand the proper procedures outlined in this user instruction manual before using the device. This device is designed for ONE person only. All persons must be properly trained and qualified before using this device. All safety guidelines and regulations must be followed during use. If proper procedures are not followed, serious injury or death may occur.

### Variants

| PRODUCT CODE | LENGTH    | ROPE DIAMETER | COLOR        | WEIGHT   | MATERIAL   | WORKING LOAD |
|--------------|-----------|---------------|--------------|--|--|--------------|
