

Rotatable Girafe Anchor

Fixed Height Rotatable L Girafe anchor

Certification

- CEN/TS 16415:2013

Industry Type

- Oil and Gas/Mining
- Chemical and Pharma
- Government Departments
- Railways
- Metals and Cement
- Manufacturing
- Construction
- Aerospace

DESCRIPTION

Girafe Anchors are high neck engineering fall protection devices, best suited for restricted area working designed to protect people climbing on trucks, rail coach, buses etc giving them a backup fall protection connection with mobility and ease of use. 1. The Fixed Height Girafe anchor is a L shaped high neck anchor with 6 mtrs height and 2 mtrs to 4 mtrs arm length. 2. The anchor is made of special hardened steel welded and clamped with stiffeners to protect deflection of the system under dynamic loads. 3. Girafe Anchor is a 360 degree rotatable device which can be manually rotated by a handle provided at the base of the system. 4. the anchor point arm can be rotated which will not disturb the working of overhead crane. 5. Girafe fixed anchor can be attached over different bases which are designed for these anchor only. 6. Girafe anchor is coated with antirust paint with a warranty of 2 years for corrosion and rusting. 7. the rotation part of system is lubricated internally closed and locked to provide long lasting error free rotational movement.

Variants

PRODUCT CODE	Rotation	Specification variants available	MATERIAL	Safe working Load	Minimum Breaking Strength	HEIGHT TO ANCHOR POINT (H)	OVERALL HEIGHT (OH)	ARM REACH	RESTRICTED BASE COVERAGE AREA
GRF70010	Rotatable	6H 2R 6H 4R	Hardened Steel	13 KN	25 KN	6 mtrs	6 mtrs	2 mtrs	-
