

T Head Fixed Girafe Anchor

Fixed Height Non Rotatable T Girafe anchor

Certification

- CEN/TS 16415:2013

Industry Type

- Oil and Gas/Mining
- Chemical and Pharma
- Government Departments
- Railways
- Metals and Cement
- Manufacturing
- Construction
- Aerospace

DESCRIPTION

Girafe Anchors are high neck engineering fall protection devices, best suited for restricted area working designed to protect people climbing on trucks, rail coach, buses etc giving them a backup fall protection connection with mobility and ease of use. 1. The Fixed Height Girafe anchor is a T shaped high neck anchor with 6 mtrs height and 4 mtrs arm length. 2. The anchor is made of special hardened steel welded and clamped with stiffeners to protect deflection of the system under dynamic loads. 3. Girafe fixed anchor can be attached over different bases which are designed for these anchor only. 4. Girafe anchor is coated with antirust paint with a warranty of 2 years for corrosion and rusting.

Variants

| PRODUCT CODE | Rotation | Specification variants available | MATERIAL | Safe working Load | Minimum Breaking Strength | HEIGHT TO ANCHOR POINT (H) | OVERALL HEIGHT (OH) | ARM REACH | RESTRICTED BASE COVERAGE AREA |
|---------------------|-----------------|---|-----------------|--------------------------|----------------------------------|-----------------------------------|----------------------------|------------------|--------------------------------------|
| GRF70040 | Non Rotatable | 6H 4D 6H 6D | Hardened Steel | 18 KN | 30 KN | 6 mtrs | 6 mtrs | 4 mtrs | - |
