DESCRIPTION

Made from premium anodized aluminum, this light is incredibly tough and outfitted with the very latest LED technology. This amazing flashlight's performance levels surpass the competition in the tactical flashlight market. Extremely compact and using new USB recharging technology, this flashlight also features a built-in battery power indicator and a dual switch option to allow the user a range of light output options. Other features include an IPX8 waterproof rating, the ability to withstand a 2-meter drop test, and 800 lumens of output. Also includes 18650 2800 mAh battery power and USB charging cord. (41-2701)
