

Z DRIVE PWM 300 LUMEN FLASHLIGHT

Z DRIVE PWM 300 LUMEN FLASHLIGHT

Certification

- EN 60079-26 : 2015

Industry Type

- Tactical
- Oil and Gas/Mining
- Chemical and Pharma
- Fire and Disaster Mgmt
- Government Departments
- Railways
- Metals and Cement
- Manufacturing
- Construction
- Adventure Parks and Hospitality
- Aerospace
- Telecommunication
- Arboriculture

DESCRIPTION

The Dorcy 300 Lumen Z Drive Flashlight offers exciting new features not found in other lights. Multi cavity use technology allows the light to run on 1,2,or 3 AAA batteries. Even if you only have one working battery,you can still have light! This technology also allows for the light to take on the characteristics of three different lights in terms of lumens and run times. The light features 300 lumens on high and 120 on low,with run times of 2 hours on high and 8 hours on low thanks to Dorcy's patented PWM circuitry. A built in LED battery power indicator ?fuel gauge keeps you informed of how much power is left. Constructed of machined aircraft aluminum with knurled non-slip barrel grip,this light is durable and has a great feel. (41-4314)

Variants

model no	Lumens	Run Time	Beam Distance	Battery	Battery QTY	Weight	Special Feature
Model #: 41-4314	300/100	2 hours / 8 hours	151	1	2 or 3 AAA	3	140 gm
